About the FPMB

MISSION

To serve as the national voice for state podiatric medical boards while collaborating with allied organizations, supporting member

boards with services and initiatives that protect and promote patient safety, integrity of podiatric medicine, access to high-quality healthcare, and regulatory best practices

From the FPMB President

As I conclude my term as President of FPMB and my eighth year on this board, I want to share some reflections and express my gratitude.

Serving on the FPMB has been a deeply fulfilling experience. When I first joined, I was uncertain about the impact I could make. My previous experience on the Podiatric Medical Board of California provided some insight into the challenges of licensing and practice, but those were limited to California. FPMB faces challenges that impact the entire country, and I joined with the intention of making a difference, becoming a better community member, and advancing the mission of our organization.

Through my interactions with you, our membership, I have learned that for FPMB to be truly successful, all parts of the organization must work together in a balanced and intentional way. Your commitment to your state and your participation with FPMB are commendable and crucial to our progress and longevity.

It has been an honor and pleasure to serve as your President. I want to extend my heartfelt thanks to our Executive Director, Russell J. Stoner, CAE, for his mentorship, leadership, and expertise. The growth and success of FPMB over the past eight years while I have been serving on the board are remarkable.

I am also excited to welcome our incoming president, Dr. Marlene Reid. She is the perfect person to continue leading the Board as we face the frequently unpredictable and unprecedented challenges of the future.

Thank you all for your dedication and support.

-Judith A. Manzi, DPM

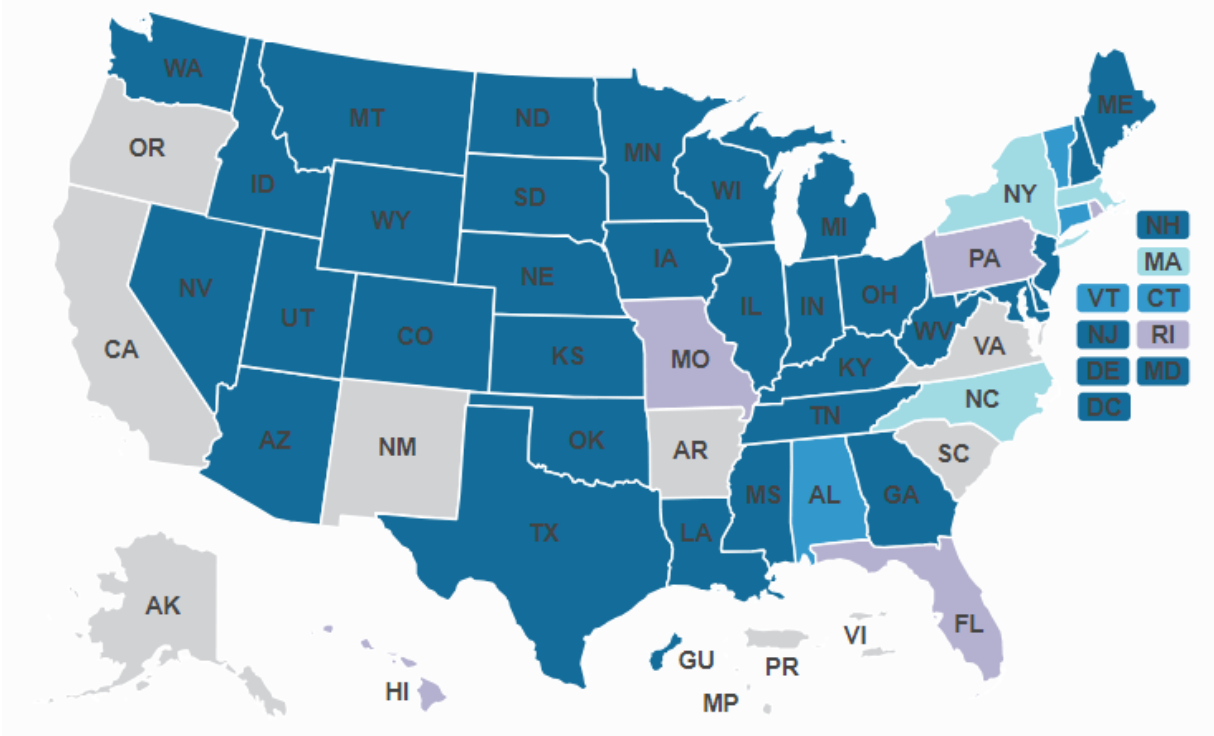

P.S. - Looking forward to robust discussions at our 2024 Annual Meeting this Friday:

- Navigating the Challenges Facing Podiatric Medical Licensing Boards
- Enhancing Podiatric License Portability
- Utilization and Regulation of Physician Assistants and Radiology Technologists
